Convergence Masterfile

Count 18,198,255 records; 8,008,293 male, 6,981,903 female, 3,208,059 unknown gender; 100% 3-line residential addresses.

Buyer Profile This multi-sourced list consists of residential, direct response buyers of computer, personal communications, and other Internet-based products and services. These educated, hard-working individuals have a strong career focus. They manage a delicate balance between family, career, and community. They contribute to local and global causes with their money as well their time and talents. Busier than most, they tend to invest in technology and personal communications products and services to accomplish more each day. Convergence Masterfile Buyers have purchased or donated via direct response display advertising, direct mail, and Internet e-commerce.

Shipping/Availability Approved orders are shipped the same day we receive them, usually within one hour of receipt. Alternatively, we offer free overnight shipping on CD-ROM via Federal Express.

Quality/Hygiene This list is regularly processed to remove duplicates, undeliverables, and do-not-mail records. First, U.S. Postal Service C.A.S.S.-certified (Coding Accuracy Support System) software is used to check each address against the U.S. Postal Service national database. Incorrect street names and missing or incorrect states and ZIP+4 codes are corrected. Once the address has been standardized and the ZIP+4 code applied, an attempt is made to match the address against the N.C.O.A. (National Change-of-Address) File, which contains approximately 115 million records or 36 months of permanent address changes. Address change information is derived from the PS Form 3575, *Change-of-Address Order*, filed by relocating postal customers. Finally, the list is run against the DMA Mail Preference Service consumer file to remove do-not-mail records. The list is supplied in ZIP+4 format.

Update Frequency Monthly on the last business day of the month; approx. 150,000 new records per month.
